

# Medicaid and COVID-19

WHAT'S CHANGED

## SEEING A HEALTHCARE PROVIDER

ALTERNATIVES TO IN-PERSON APPOINTMENTS ARE BEING OFFERED

During this time, patients and providers may use telephonic, telemedicine and/or video technology for:

- New Patient Visits
- Established Patient Visits
- Medication Management
- Behavioral and Mental Health Services
- Outpatient Treatment for Substance Use Disorder
- Case Management
- Home Visits

**\*Ask your healthcare provider if your visit can take place via phone, or video chat.**

## IF YOU NEED TO BE TESTED FOR COVID-19

COPAYS AND COST-SHARING FOR TESTING AND TREATMENT ARE WAIVED

The Michigan Medicaid Program, which includes Medicaid, Healthy Michigan Plan, MIChild, and Healthy Kids, will waive copays and cost-sharing for testing and health care treatment related to COVID-19.

## IF YOU HAVE A COVID-19 INFECTION

MOST COVID-19 RELATED CARE IS COVERED UNDER YOUR MEDICAID PLAN

- Practitioner visits and services, including home visits and telemedicine services
- Clinical diagnostic laboratory tests and diagnostic imaging
- Prescribed drugs
- Medical supplies and equipment
- Inpatient and outpatient hospital services
- Long-term services and supports
- Other ancillary and medically necessary Medicaid-covered services, as appropriate

**DID YOU EXPERIENCE A REDUCTION IN HOURS OR WERE YOU LAID OFF DURING COVID-19?**

If you lost health insurance through your job, or never had health insurance, you may qualify for Medicaid. Medicaid eligibility is based off of income. For more information, or to apply, visit [michigan.gov/mibridges](https://michigan.gov/mibridges).
