Assessment needed for In-home vaccination.

Vaccine efficacy wanes over time, reducing your protection against COVID-19. The CDC recommends up-to-date vaccination for the best protection (which includes a booster) if:

- It's been 5 or more months since you received your 2nd dose of the Pfizer-BioNTech vaccine.
- It's been 5 or more months since you had your 2nd dose of the Moderna vaccine.
- It's been 2 or more months since you received a Johnson & Johnson vaccine
